Version 0.5 — Art Style Guide & Card Prompts Added

*Single source of truth. Includes all design, values, and technical decisions.*

# 1. Technical Stack

Android-only, Kotlin + Jetpack Compose. No Java, no LiveData, no GlobalScope. All async via Coroutines + Flow/StateFlow.

| Technology             | Version        | Notes                                              |
|------------------------|----------------|----------------------------------------------------|
| Kotlin                 | 1.9.22         | Primary language. No Java.                         |
| AGP                    | 8.3.0          | Do not update without reviewing KSP compatibility. |
| KSP                    | 1.9.22-1.0.17  | Must match Kotlin version exactly.                 |
| minSdk                 | 28 (Android 9) | Minimum supported.                                 |
| targetSdk / compileSdk | 34             | Current target.                                    |
| Jetpack Compose BOM    | 2024.02.00     | Manages Compose versions internally.               |
| Hilt                   | 2.50           | Dependency injection.                              |
| Room                   | 2.6.1          | Local persistence.                                 |
| Coroutines             | 1.7.3          | Game loop and async operations.                    |
| Gson                   | 2.10.1         | GameState serialisation to JSON for Room.          |
| DataStore              | 1.0.0          | Lightweight config and preferences.                |
| Navigation Compose     | 2.7.7          | Screen navigation.                                 |

## 1.1 Architecture — Clean Architecture (Strict)

- domain/model/ — All entities and models. Each in its own file.
- domain/engine/ — GameEngine: pure logic, zero Android or Compose imports.
- domain/usecase/ — Optional use cases for complex logic.
- data/db/ — Room entities, DAOs, Database.
- data/repository/ — GameRepository: load and save game state.
- presentation/viewmodel/ — Hilt ViewModels connecting engine to UI.
- presentation/screen/ — Compose screens.
- presentation/ui/theme/ — Theme, colours, typography.
- app/di/ — Hilt modules.

⚠ GameEngine must NOT import anything from Android or Compose. Pure logic, fully testable with JUnit.

⚠ No business logic in ViewModels. No logic in Compose. Never use LiveData — Flow and StateFlow throughout. Never block main thread with Room — always Dispatchers.IO.

## 2. Game Overview

Monster Packs is an offline mobile card-collecting game. Players open packs to discover creatures, real animals, plants, objects, landscapes, and legendary beings — completing collections and levelling up. No internet connection required. Visual style: colorful, epic, modern, detailed, non-minimalist.

### 2.1 Core Loop

- Open the free Basic Pack — unlimited, no cooldown.
- Cards revealed one by one in ascending rarity order (least rare first, most rare last).
- Earn Coins and Gems from each card obtained.
- Earn XP per pack opened — level up to unlock upgrades.
- Spend resources on Special Packs or upgrades in the Shop.
- Complete collections.

### 2.2 First Launch — Username Setup

On first launch, before accessing any screen, the player must enter a username. This name is displayed in the top bar across all main screens. The username can be changed once from Settings > Account. No further changes are permitted.

### 2.3 Navigation — Bottom Tab Bar

| Tab        | Icon                                                                                | Description                            |
|------------|-------------------------------------------------------------------------------------|----------------------------------------|
| Pack       |  | Main free pack opening screen.         |
| Collection |  | View all cards, unlocked and locked.   |
| Shop       |  | Upgrades and special packs.            |
| Settings   |  | Language, Google Play, account, legal. |

**i** The bottom navigation bar is hidden during pack opening (from the moment the player taps 'Open a Pack' until the summary screen is dismissed).

## 3. Models

Cards are pre-defined static entities. Opening a pack reads from the existing pool and updates the player's copy count. Pack sessions are not persisted — only card counts and resources matter.

### 3.1 Card

| Field            | Type             | Description                                                                                           |
|------------------|------------------|-------------------------------------------------------------------------------------------------------|
| id               | Int              | Unique identifier.                                                                                    |
| name             | String           | Display name.                                                                                         |
| type             | CardType (enum)  | Thematic family. Determines background colour.                                                        |
| rarity           | Rarity (enum)    | Drop probability, shape, animation, rewards.                                                          |
| collection       | Collection (ref) | Card pool this card belongs to.                                                                       |
| description      | String?          | Short flavour text (1–2 sentences). Present for Common, Rare, Epic. Null for Special, Legendary, God. |
| imageRes         | String / ResId   | Placeholder or final illustration.                                                                    |
| collectionNumber | Int              | Card number within the collection (e.g. #042). Shown on card bottom-left.                             |
| coinReward       | Int              | Coins awarded on obtain.                                                                              |
| gemReward        | Int              | Gems awarded (0 for Common / Rare / Epic).                                                            |
| copies           | Int              | Player-owned copies. 0 = locked (silhouette shown).                                                   |
| isVariant        | Boolean          | True if this is a Special / Legendary / God variant of a base card.                                   |
| baseCardId       | Int?             | Reference to the base card if isVariant = true.                                                       |

**i** Card descriptions are unique per card — short flavour text that describes the creature in 1–2 sentences. Shown during opening and in the collection detail view. Not shown on Special, Legendary, or God cards (their art speaks for itself).

### 3.2 PackDefinition

| Field | Type   | Description                                         |
|-------|--------|-----------------------------------------------------|
| id    | String | Unique identifier (e.g. 'pack_basic', 'pack_fire'). |
| name  | String | Display name.                                       |

|               |                  |                                                                    |
|---------------|------------------|--------------------------------------------------------------------|
| type          | PackType (enum)  | BASIC, TYPE_THEMED, RARITY_BOOSTED, LUCKY, REWARD.                 |
| collection    | Collection (ref) | Card pool source.                                                  |
| cardPool      | List<CardType>?  | TYPE_THEMED only: restricts to these types.                        |
| slotRules     | List<SlotRule>   | Per-slot rarity rules or roll distribution.                        |
| cost          | PackCost?        | Null for free packs; otherwise Coins or Gems.                      |
| coverRes      | String / ResId   | Collection cover art shown on pack front.                          |
| designRes     | String / ResId   | Pack border/form asset — unique per pack type.                     |
| backgroundRes | String / ResId   | Background shown during opening — set by collection and pack type. |
| xpReward      | Int              | XP granted when this pack is opened.                               |

i Each pack has: (1) a collection cover for the front face, (2) borders and decorative forms that vary by pack type, (3) a background that changes during opening based on collection and type.

i A pack can never contain two copies of the same card. The roll engine must re-roll if a duplicate would appear within the same opening session.

### 3.3 SlotRule

| Field            | Type                | Description                                                  |
|------------------|---------------------|--------------------------------------------------------------|
| slot             | Int                 | Slot index (1–5 for standard packs, 1–3 for Bonus Pack).     |
| guaranteedRarity | Rarity?             | If set, this slot always yields exactly this rarity.         |
| minimumRarity    | Rarity?             | If set, roll cannot produce below this rarity (Lucky Packs). |
| rollTable        | Map<Rarity, Float>? | Custom probability table for free-roll slots.                |

### 3.4 Collection

| Field | Type       | Description                                     |
|-------|------------|-------------------------------------------------|
| id    | String     | Unique identifier.                              |
| name  | String     | Display name.                                   |
| cards | List<Card> | All cards in this collection (base + variants). |

|          |                |                                                       |
|----------|----------------|-------------------------------------------------------|
| coverRes | String / ResId | Cover image shown on pack face and collection header. |
|----------|----------------|-------------------------------------------------------|

### 3.5 PlayerState

| Field                  | Type          | Description                                                                 |
|------------------------|---------------|-----------------------------------------------------------------------------|
| username               | String        | Chosen on first launch. Changeable once from Settings > Account.            |
| usernameChanged        | Boolean       | True if the username has already been changed once. Blocks further changes. |
| coins                  | Long          | Current coin balance.                                                       |
| gems                   | Long          | Current gem balance.                                                        |
| xp                     | Long          | Total accumulated XP.                                                       |
| level                  | Int           | Current player level.                                                       |
| cardCopies             | Map<Int, Int> | cardId -> copy count.                                                       |
| rewardPackReadyAt      | Long?         | Epoch ms when next Bonus Pack is ready.                                     |
| basicPackUpgradeLevel  | Int           | Upgrade tier for Basic Pack.                                                |
| rewardPackUpgradeLevel | Int           | Upgrade tier for Bonus Pack.                                                |

## 4. Card Types

10 types in the initial collection. Card counts are intentionally unequal — some types feel more exclusive. Types can contain fantastical creatures, real animals, plants, objects, and real-world phenomena. Future versions may introduce fully real-world types (e.g. 'Dogs').

| Type      | Theme                         | Colour (hex)            | Card Count |
|-----------|-------------------------------|-------------------------|------------|
| Infernal  | Fire, volcanoes, magma, hell  | #C0392B (deep red)      | 15         |
| Abyssal   | Deep sea, darkness, pressure  | #1A3A5C (dark navy)     | 14         |
| Spectral  | Death, dark magic, undead     | #4A235A (dark purple)   | 14         |
| Celestial | Stars, cosmos, divine light   | #D4AC0D (gold)          | 15         |
| Storm     | Lightning, wind, tempests     | #2874A6 (electric blue) | 14         |
| Verdant   | Forest, nature, plants, earth | #1E8449 (forest green)  | 13         |
| Frost     | Ice, tundra, arctic creatures | #AED6F1 (ice blue)      | 14         |
| Arcane    | Pure magic, runes, constructs | #7D3C98 (violet)        | 14         |
| Savage    | Wild beasts, primal instinct  | #D35400 (burnt orange)  | 14         |
| Mythic    | Gods, ancient myths, legends  | #B7950B (antique gold)  | 15         |

## 5. Rarities

Rarity controls drop probability, card visual shape/frame, animation tier, rewards, and icon. Cards are always revealed in ascending rarity order within a pack — least rare first, most rare last.

| Rarity    | Icon | Coin Reward | Gem Reward | Base Drop % (free slots) | Animation Tier          |
|-----------|------|-------------|------------|--------------------------|-------------------------|
| Common    | ✱    | 1           | 0          | ~58%                     | Simple fade-in          |
| Rare      | ⚡    | 2           | 0          | ~35%                     | Glow pulse              |
| Epic      | 💥    | 10          | 0          | 5%                       | Particle burst          |
| Special   | ★    | 100         | 10         | 1%                       | Full-screen shatter     |
| Legendary | 💧    | 500         | 50         | 0.1%                     | Epic cinematic          |
| God       | 🪐    | 2000        | 200        | 0.01%                    | Full legendary sequence |

Rarity icons are displayed on the card face (bottom-right area alongside the card number) and in the Collection screen progress counters.

### 5.1 Variant Card Rules

| Variant Tier | Based on              | Visual Treatment                                  | Rule                                           |
|--------------|-----------------------|---------------------------------------------------|------------------------------------------------|
| Special      | Rare or Epic          | Enhanced illustration, special background effects | Selected Rares and Epics get a Special variant |
| Legendary    | Epic only             | Full-art — card border dissolves into the artwork | Only selected Epics get a Legendary variant    |
| God          | Common, Rare, or Epic | Unique layout, representative of entire type      | Exactly one God per type (10 total)            |

**i** Common cards never have Special or Legendary variants. Descriptions (flavour text) are shown only on Common, Rare, and Epic cards. Special, Legendary, and God cards have no description — their artwork is the statement.

## 6. Card Catalogue — Initial Collection

Complete proposed card list. The Description column contains the flavour text shown on the card during opening and in the collection detail. Special, Legendary, and God cards have no description field — the notes column describes the art direction instead.

### 6.1 Infernal (15 cards)

| Card Name                     | Rarity    | Description / Art Direction                                                           |
|-------------------------------|-----------|---------------------------------------------------------------------------------------|
| Ember Lizard                  | Common    | Small fire lizard, base creature. Skitters across volcanic rock leaving scorch marks. |
| Ash Crow                      | Common    | Charred black crow with ember eyes. Feeds on the remains of those consumed by flame.  |
| Cinder Beetle                 | Common    | Volcanic beetle with a glowing carapace. Its shell is hot enough to brand skin.       |
| Smolder Toad                  | Common    | Volcanic toad that spits bursts of fire. Found near geothermal vents.                 |
| Flamehorn Ram                 | Common    | Ram with permanently burning horns. Charges headfirst into anything that moves.       |
| Pyro Hellhound                | Rare      | Classic hellhound with a mane of living fire. Its howl ignites the air around it.     |
| Magma Crab                    | Rare      | Crab armoured in cooled lava rock. Crushes prey with claws that reheat on impact.     |
| Lava Serpent                  | Rare      | A serpent that swims through magma as if it were water.                               |
| Lava Serpent (Special)        | Special   | Full-art redesign. Glowing lava veins pulse beneath obsidian scales.                  |
| Cinderclaw Wyvern             | Epic      | Wyvern with talons of molten rock. Leaves rivers of fire wherever it lands.           |
| Cinderclaw Wyvern (Legendary) | Legendary | Full-art, obsidian and fire legendary frame. The sky behind it is permanently ash.    |
| Molten Serpent                | Epic      | A massive serpent of pure magma. Older than the volcanoes it inhabits.                |
| Molten Serpent (Special)      | Special   | Enhanced art with heat distortion effects rippling across the frame.                  |
| Ember Phoenix                 | Epic      | A phoenix reborn endlessly from its own ash. Its tears are liquid fire.               |
| Magma Titan (GOD)             | God       | God of Infernal. A colossal volcanic titan. Its footsteps open new craters.           |

### 6.2 Abyssal (14 cards)

| Card Name | Rarity | Description / Art Direction |
|-----------|--------|-----------------------------|
|-----------|--------|-----------------------------|

|                                    |           |                                                                                         |
|------------------------------------|-----------|-----------------------------------------------------------------------------------------|
| Brine Shrimp                       | Common    | A tiny deep-sea shrimp with bioluminescent spots. Harmless alone. Lethal in swarms.     |
| Cave Eel                           | Common    | A blind eel from flooded underwater caverns. Navigates by pressure alone.               |
| Deepwater Crab                     | Common    | A real deep-sea crab grown to impossible size under crushing pressure.                  |
| Fangtooth Fish                     | Common    | A real deep-sea fish with teeth too large to close its mouth. Pure terror, small scale. |
| Pressure Jellyfish                 | Common    | A translucent jellyfish that implodes violently if brought to the surface.              |
| Abyssal Manta                      | Rare      | An enormous manta ray gliding through total darkness. Its wingspan blocks the sonar.    |
| Voidfin Shark                      | Rare      | A shark adapted to lightless depths. Its skin absorbs all light around it.              |
| Lurker Eel                         | Rare      | A massive predatory eel that waits motionless for centuries before striking.            |
| Bioluminescent Jellyfish           | Rare      | A stunning glowing jellyfish inspired by real deep-sea species. Beautiful and lethal.   |
| Bioluminescent Jellyfish (Special) | Special   | Full-art. Glowing tentacles fill the entire frame in electric blue and violet.          |
| Deep Horror                        | Epic      | A Lovecraftian deep-sea monstrosity. Its shape changes depending on who is watching.    |
| Deep Horror (Legendary)            | Legendary | Full-art legendary. Tentacles extend beyond the card border into the void.              |
| Leviathan                          | Epic      | The classic sea serpent of legend. Long enough to encircle a continent.                 |
| The Kraken (GOD)                   | God       | God of Abyssal. The legendary kraken. Its tentacles have sunk entire fleets.            |

### 6.3 Spectral (14 cards)

| Card Name    | Rarity | Description / Art Direction                                                     |
|--------------|--------|---------------------------------------------------------------------------------|
| Shadow Bat   | Common | A small bat made of living shadow. Disappears completely in darkness.           |
| Grave Moth   | Common | A moth that feeds on the moss growing on ancient tombstones. Ancient and quiet. |
| Pale Wisp    | Common | A floating ghostly orb of cold light. Lures travelers away from safe paths.     |
| Bone Rat     | Common | A skeletal rat. Undead vermin that gnaws on things it can no longer taste.      |
| Dusk Crow    | Common | A crow that vanishes completely at daybreak. Only its call remains at dawn.     |
| Specter Wolf | Rare   | A translucent ghostly wolf. Its howl can only be heard by those about to die.   |

|                            |           |                                                                                             |
|----------------------------|-----------|---------------------------------------------------------------------------------------------|
| Grave Gargoyle             | Rare      | A stone gargoyle animated by dark magic. Returns to stone when it believes it is watched.   |
| Phantom Cat                | Rare      | A cat that phases through walls. It has lived in the same house for three centuries.        |
| Duskborn Vampire           | Epic      | A classic vampire, elegant and deadly. Has outlived every civilization it has fed from.     |
| Duskborn Vampire (Special) | Special   | Full-art, crimson moon backdrop. Fangs catch the light of a dying star.                     |
| The Wraith                 | Epic      | An incorporeal dark entity that passes through all matter. It has no memory of what it was. |
| The Wraith (Legendary)     | Legendary | Full-art. Shadow tendrils consume the entire frame. Only eyes remain.                       |
| Pale Banshee               | Epic      | A wailing spirit that foretells death. Its scream is heard three days before the event.     |
| Lich of the Abyss (GOD)    | God       | God of Spectral. An undying lich robed in the souls of ten thousand fallen.                 |

## 6.4 Celestial (15 cards)

| Card Name                  | Rarity  | Description / Art Direction                                                              |
|----------------------------|---------|------------------------------------------------------------------------------------------|
| Stardust Moth              | Common  | A moth with wings patterned like a distant galaxy. Navigates by starlight alone.         |
| Comet Fox                  | Common  | A small fox trailing a permanent stream of stardust. Appears only during meteor showers. |
| Moon Hare                  | Common  | A rabbit that only becomes visible under direct moonlight. Invisible at noon.            |
| Astral Firefly             | Common  | A firefly glowing in nebula colours — violet, gold, and deep blue.                       |
| Cloud Turtle               | Common  | A turtle drifting slowly through the upper atmosphere. It never descends.                |
| Nebula Serpent             | Rare    | A serpent with galaxy-patterned scales. Every scale reflects a different star system.    |
| Astral Pegasus             | Rare    | A winged horse with a mane of star-trail light. Leaves constellations in its wake.       |
| Meteor Golem               | Rare    | A golem built entirely from meteorite fragments. Hotter to the touch than it appears.    |
| Lunar Moth                 | Rare    | A giant moth drawn powerfully to lunar energy. Grows larger each full moon.              |
| Lunar Moth (Special)       | Special | Full-art. The moon glows through translucent wings mapped with light.                    |
| Stardust Unicorn           | Epic    | A unicorn with a horn of condensed starlight. Its blood is liquid aurora.                |
| Stardust Unicorn (Special) | Special | Enhanced art. A galaxy is reflected perfectly in both of its eyes.                       |

|                           |                  |                                                                                  |
|---------------------------|------------------|----------------------------------------------------------------------------------|
| Solar Griffin             | <b>Epic</b>      | A griffin radiating solar energy. Blind to look at directly. Warm to stand near. |
| Solar Griffin (Legendary) | <b>Legendary</b> | Full-art. An eclipse halo surrounds the legendary frame. Light bends around it.  |
| Dawn Phoenix (GOD)        | <b>God</b>       | God of Celestial. A phoenix of pure sunlight. Its rebirth creates new stars.     |

## 6.5 Storm (14 cards)

| Card Name               | Rarity           | Description / Art Direction                                                              |
|-------------------------|------------------|------------------------------------------------------------------------------------------|
| Gale Sparrow            | <b>Common</b>    | A small bird that rides the leading edge of storm fronts. Never lands willingly.         |
| Storm Cloud             | <b>Common</b>    | A living storm cloud — a real meteorological phenomenon given consciousness and hunger.  |
| Thunder Gecko           | <b>Common</b>    | A lizard that stores static charge in its tail. Shocks anything that touches it.         |
| Squall Bat              | <b>Common</b>    | A bat that navigates by lightning echolocation during active electrical storms.          |
| Rain Serpent            | <b>Common</b>    | A serpent that appears only during heavy rainfall. Dissolves into water at storm's end.  |
| Gale Hawk               | <b>Rare</b>      | A hawk that generates small tornados at its wingtips with every downstroke.              |
| Lightning Eel           | <b>Rare</b>      | A massively oversized electric eel. Generates enough charge to stop a heart at distance. |
| Cyclone Drake           | <b>Rare</b>      | A small drake that spawns miniature cyclones when it exhales.                            |
| Cyclone Drake (Special) | <b>Special</b>   | Full-art. The card shows the view from inside the eye of a storm.                        |
| Storm Giant             | <b>Epic</b>      | A colossal humanoid born from a supercell storm. Speaks only in thunder.                 |
| Storm Giant (Special)   | <b>Special</b>   | Enhanced art. Lightning veins trace paths across the giant's stone skin.                 |
| Thunderbird             | <b>Epic</b>      | From Native American myth. Creates thunder with every wingbeat. Cannot be calm.          |
| Thunderbird (Legendary) | <b>Legendary</b> | Full-art legendary. A storm crown. Every feather is a living lightning bolt.             |
| Tempest Lynx (GOD)      | <b>God</b>       | God of Storm. A lynx of living electricity. It is the storm. The storm is it.            |

## 6.6 Verdant (13 cards)

| Card Name | Rarity | Description / Art Direction |
|-----------|--------|-----------------------------|
|-----------|--------|-----------------------------|

|                            |           |                                                                                              |
|----------------------------|-----------|----------------------------------------------------------------------------------------------|
| Moss Turtle                | Common    | A real turtle with a full ecosystem of moss growing on its shell. Very slow. Very old.       |
| Bramble Rabbit             | Common    | A rabbit perfectly camouflaged inside thornbush. Entirely invisible when still.              |
| Spore Mushroom             | Common    | A sentient mushroom that releases clouds of disorienting spores when threatened.             |
| Petal Sprite               | Common    | A tiny fairy made entirely of living petals. Falls apart in autumn. Regrows in spring.       |
| Vine Frog                  | Common    | A frog that blends seamlessly into rainforest vines. Hunts by absolute stillness.            |
| Thorn Wolf                 | Rare      | A wolf with thorned fur that functions as natural armour. Impossible to grab.                |
| Root Serpent               | Rare      | A serpent that burrows through root systems and emerges from the earth without warning.      |
| Mushroom Golem             | Rare      | A golem of compressed mycelium. Rebuilds itself from any nearby fungi when damaged.          |
| Mushroom Golem (Special)   | Special   | Full-art. A spore cloud fills the entire background in deep green and gold.                  |
| Ancient Treant             | Epic      | A thousand-year-old tree that has woken up. Its voice is the sound of roots splitting stone. |
| Ancient Treant (Legendary) | Legendary | Full-art. An entire old-growth forest exists inside the card frame.                          |
| Vine Hydra                 | Epic      | A hydra of living vines. Each severed head regrows as two new branches by morning.           |
| Bramble Bear (GOD)         | God       | God of Verdant. A bear woven from the entire forest. As old as the soil beneath it.          |

## 6.7 Frost (14 cards)

| Card Name       | Rarity | Description / Art Direction                                                             |
|-----------------|--------|-----------------------------------------------------------------------------------------|
| Snowdrift Owl   | Common | An owl with feathers of compressed snow. Silent and weightless. Impossible to track.    |
| Ice Hare        | Common | An arctic hare with a white coat and frost breath. Real species, mythologised.          |
| Glacier Crab    | Common | A crab encased in living ice armour that continuously regenerates if cracked.           |
| Frost Viper     | Common | A snake that freezes prey solid with a single bite. Hunts in blizzards.                 |
| Tundra Fox      | Common | An arctic fox, real species, elevated to myth. Said to guide lost travelers to warmth.  |
| Permafrost Yeti | Rare   | A yeti adapted to the deepest polar ice. Has not been warm since the last ice age.      |
| Arctic Kitsune  | Rare   | A nine-tailed fox of the frozen north. Each tail controls a different aspect of winter. |

|                          |                  |                                                                                      |
|--------------------------|------------------|--------------------------------------------------------------------------------------|
| Blizzard Serpent         | <b>Rare</b>      | A serpent that travels inside blizzards. Indistinguishable from the storm itself.    |
| Arctic Kitsune (Special) | <b>Special</b>   | Full-art. Nine tails fan across a frozen aurora in silver and pale blue.             |
| Ice Sphinx               | <b>Epic</b>      | A sphinx carved from a living glacier. Still. Patient. Unspeakably old. Still alive. |
| Ice Sphinx (Special)     | <b>Special</b>   | Enhanced art. Ice crystals refract light into a full spectrum across the frame.      |
| Glacier Wurm             | <b>Epic</b>      | A dragon-like wurm of pure glacial ice. Its breath locks the sea solid in seconds.   |
| Glacier Wurm (Legendary) | <b>Legendary</b> | Full-art legendary. An entire ice age is contained within a single card.             |
| Frost Giant (GOD)        | <b>God</b>       | God of Frost. The primordial frost giant. The first winter began the moment it woke. |

## 6.8 Arcane (14 cards)

| Card Name                | Rarity           | Description / Art Direction                                                                           |
|--------------------------|------------------|-------------------------------------------------------------------------------------------------------|
| Mana Wisp                | <b>Common</b>    | A floating orb of raw magical energy. Harmless until it destabilises. Then catastrophic.              |
| Hex Cat                  | <b>Common</b>    | A cat that accidentally casts minor spells when it blinks. No malice. Constant chaos.                 |
| Runic Beetle             | <b>Common</b>    | A beetle with runes carved naturally into its shell. Each rune does something different.              |
| Glyph Moth               | <b>Common</b>    | A moth whose wing patterns are live, shifting runes. Impossible to study. Always moving.              |
| Scroll Serpent           | <b>Common</b>    | A serpent that wraps itself into scroll form. Libraries treat them as pests.                          |
| Glyph Drake              | <b>Rare</b>      | A small drake that breathes runic fire. Whatever it burns becomes marked with power.                  |
| Spellbound Gargoyle      | <b>Rare</b>      | A gargoyle animated by a spell that has since been forgotten. Cannot be dispelled.                    |
| Arcane Chimera           | <b>Rare</b>      | A three-headed magical construct chimera. Each head belongs to a different school of magic.           |
| Arcane Chimera (Special) | <b>Special</b>   | Full-art. Each head radiates a distinct magical school in colour and energy.                          |
| Ether Serpent            | <b>Epic</b>      | A serpent that exists partially in another dimension. You can see through it. It can see through you. |
| Ether Serpent (Special)  | <b>Special</b>   | Enhanced art. The serpent is mid-phase between planes, splitting the frame in two realities.          |
| Runic Golem              | <b>Epic</b>      | A massive golem constructed from stacked arcane runes. Each rune is a binding law.                    |
| Runic Golem (Legendary)  | <b>Legendary</b> | Full-art legendary. Every rune on its body is legible. Together they tell a complete story.           |

|                       |            |                                                                                              |
|-----------------------|------------|----------------------------------------------------------------------------------------------|
| Construct Prime (GOD) | <b>God</b> | God of Arcane. The original magical construct. The source from which all spells were copied. |
|-----------------------|------------|----------------------------------------------------------------------------------------------|

## 6.9 Savage (14 cards)

| Card Name                   | Rarity           | Description / Art Direction                                                            |
|-----------------------------|------------------|----------------------------------------------------------------------------------------|
| Dire Boar                   | <b>Common</b>    | A massive wild boar at prehistoric scale. Nothing moves it. Nothing stops it.          |
| Razorback Wolf              | <b>Common</b>    | A wolf with blade-like dorsal spines that emerge when it runs. Leaves a trail of cuts. |
| Ironhide Armadillo          | <b>Common</b>    | An armadillo with near-indestructible natural plating. Real species, mythologised.     |
| Tusk Badger                 | <b>Common</b>    | A badger with elongated ivory tusks. Ferocious beyond any reasonable size.             |
| Primal Crow                 | <b>Common</b>    | A crow from before recorded history. It remembers things that no longer exist.         |
| Feral Lynx                  | <b>Rare</b>      | A lynx that has learned to hunt supernatural prey. Patient. Precise. Relentless.       |
| Saber-Tooth Tiger           | <b>Rare</b>      | The classic prehistoric apex predator. Still alive. Still hunting. Still hungry.       |
| Dire Bear                   | <b>Rare</b>      | A bear the size of a small building. Its growl registers as seismic activity.          |
| Saber-Tooth Tiger (Special) | <b>Special</b>   | Full-art. An ice age landscape stretches behind it under a pale, prehistoric sky.      |
| Bone Crusher Ape            | <b>Epic</b>      | An ape of pure prehistoric muscle. Its knuckles have cracked stone floors to rubble.   |
| Bone Crusher Ape (Special)  | <b>Special</b>   | Enhanced art. Knuckles mid-impact, stone fragmenting in every direction.               |
| Primal Raptor               | <b>Epic</b>      | A raptor that survived beyond its own extinction through pure ferocity and spite.      |
| Primal Raptor (Legendary)   | <b>Legendary</b> | Full-art legendary. A hunting pack moves in formation behind it through primeval fern. |
| Ironhide Rhino (GOD)        | <b>God</b>       | God of Savage. The first beast. Older than memory. Older than names.                   |

## 6.10 Mythic (15 cards)

| Card Name | Rarity        | Description / Art Direction                                                        |
|-----------|---------------|------------------------------------------------------------------------------------|
| Harpy     | <b>Common</b> | A winged woman of Greek myth. Steals food and sanity in equal measure.             |
| Satyr     | <b>Common</b> | Half-man, half-goat. Deeply mischievous. Deeply committed to revelry. Unavoidable. |

|                        |           |                                                                                            |
|------------------------|-----------|--------------------------------------------------------------------------------------------|
| Siren                  | Common    | A dangerous sea singer. Her voice turns ships toward rocks. She never means harm.          |
| Imp                    | Common    | A small demonic trickster. Its pranks begin minor. They never end minor.                   |
| Centaur Scout          | Common    | A young centaur with a bow. First of its kind to venture beyond the forest's edge.         |
| The Cyclops            | Rare      | A one-eyed giant of Greek legend. Slow to anger. Catastrophic when angry.                  |
| Medusa                 | Rare      | A gorgon whose gaze petrifies. Her garden of statues is the most visited in the world.     |
| Sphinx of Riddles      | Rare      | The Egyptian sphinx. Keeper of ancient questions. Deadly to those who answer wrong.        |
| Medusa (Special)       | Special   | Full-art. Stone statues of failed challengers surround her in the background.              |
| The Minotaur           | Epic      | The labyrinth beast. Half-man, half-bull. Still pacing. Still waiting. Still hungry.       |
| The Minotaur (Special) | Special   | Enhanced art. Maze corridors recede infinitely behind the beast.                           |
| Chimera                | Epic      | A lion-goat-serpent, three natures permanently at war inside a single body.                |
| Chimera (Legendary)    | Legendary | Full-art legendary. All three natures are visible, each pulling in a different direction.  |
| Cerberus               | Epic      | Three-headed guardian of the underworld. Has never once let anyone leave.                  |
| Hydra (GOD)            | God       | God of Mythic. The immortal Hydra. Every head is a different legend. None can be silenced. |

## 7. Pack System

All packs: no duplicate cards per session, cards revealed in ascending rarity order. Each pack has a unique visual identity: collection cover on the front face, type-specific border and decorative forms, and a collection+type background during opening.

### 7.1 Basic Pack (Free, Unlimited)

| Slot   | Rule                                                                              |
|--------|-----------------------------------------------------------------------------------|
| Slot 1 | Always Common                                                                     |
| Slot 2 | Always Common                                                                     |
| Slot 3 | Always Rare (exactly)                                                             |
| Slot 4 | Free roll: ~58% Common, ~35% Rare, 5% Epic, 1% Special, 0.1% Legendary, 0.01% God |
| Slot 5 | Same free roll as Slot 4                                                          |

### 7.2 Bonus Pack (Free, Cooldown-Based)

Generates automatically in the Shop. All parameters are upgradeable (requires sufficient player level).

| Parameter         | Default Value      | Upgradeable?                     |
|-------------------|--------------------|----------------------------------|
| Cards per pack    | 3                  | Yes                              |
| Gems per pack     | 5                  | Yes                              |
| XP per pack       | 5                  | Yes                              |
| Cooldown          | 10 minutes         | Yes — reduced per upgrade tier   |
| Max stored packs  | 1                  | Yes — increased per upgrade tier |
| Card rarity table | Standard free roll | Yes — improved per upgrade tier  |

### 7.3 Special Packs (Paid)

#### 7.3.1 Type-Themed Packs (10 total — one per type)

Restricts the card pool to that type. Standard rarity distribution. Players targeting a specific type use these.

#### 7.3.2 Rarity-Boosted Packs

Shifts the probability table toward a target rarity — does not guarantee a minimum. Players who want better odds at a rarity without a guaranteed floor use these.

| Pack Name            | Boosted Rarity | Approx. Boosted Drop Rate (free slots)                              |
|----------------------|----------------|---------------------------------------------------------------------|
| Rare Boosted Pack    | Rare ⚡         | Rare: ~55%, Common: ~38%, Epic: 6%, others unchanged                |
| Epic Boosted Pack    | Epic 💥         | Epic: ~20%, Rare: ~40%, Common: ~33%, Special: 6%, others unchanged |
| Special Boosted Pack | Special ★      | Special: ~8%, Epic: 10%, Rare: ~35%, Common: ~40%, Legendary: 6%    |

### 7.3.3 Lucky Packs

Guaranteed minimum rarity on all slots. Distinctly different from Rarity-Boosted: Lucky replaces the floor, Boosted shifts the table.

| Pack Name            | Minimum Rarity | Roll above minimum                               |
|----------------------|----------------|--------------------------------------------------|
| Lucky Epic Pack      | Epic 💥         | ~80% Epic, 15% Special, 4.5% Legendary, 0.5% God |
| Lucky Special Pack   | Special ★      | ~85% Special, 13% Legendary, 2% God              |
| Lucky Legendary Pack | Legendary 🌊    | ~92% Legendary, 8% God                           |

## 7.4 Pack Upgrade Event (Surprise Pack)

When the player taps to open a Basic Pack, a low-probability check fires before the first card is revealed. If triggered, an 'evolution' animation upgrades the pack visually before the opening sequence begins.

| Detail                | Value / Note                                                                                       |
|-----------------------|----------------------------------------------------------------------------------------------------|
| Trigger moment        | On player tap — before first card reveal, after nav bar is hidden                                  |
| Base probability      | ~0.5% (to be tuned)                                                                                |
| Resulting pack type   | Random Special Pack, weighted by tier                                                              |
| Probability by result | Type-Themed: 50%   Rarity-Boosted: 30%   Lucky Epic: 12%   Lucky Special: 6%   Lucky Legendary: 2% |
| Animation             | Evolution animation upgrades pack art and border before opening begins                             |

## 8. Resources

### 8.1 Coins

| Source                  | Amount       |
|-------------------------|--------------|
| Common card obtained    | +1 coin      |
| Rare card obtained      | +2 coins     |
| Epic card obtained      | +10 coins    |
| Special card obtained   | +100 coins   |
| Legendary card obtained | +500 coins   |
| God card obtained       | +2,000 coins |

### 8.2 Gems

| Source                  | Amount                      |
|-------------------------|-----------------------------|
| Special card obtained   | +10 gems                    |
| Legendary card obtained | +50 gems                    |
| God card obtained       | +200 gems                   |
| Bonus Pack opened       | +5 gems (base, upgradeable) |

**i** Coins and Gems are always awarded regardless of whether the card is new or a duplicate. A future 'Fuse' mechanic will let players trade duplicates for bonus resources.

## 9. User Level System

Players earn XP by opening packs. Levelling up unlocks the ability to purchase upgrades in the Shop. Levels gate upgrades to prevent early over-optimisation.

### 9.1 XP Sources

| Source              | Base XP | Upgradeable?                    |
|---------------------|---------|---------------------------------|
| Basic Pack opened   | 10 XP   | Yes — via Basic Pack XP upgrade |
| Bonus Pack opened   | 5 XP    | Yes — via Bonus Pack XP upgrade |
| Special Pack opened | 20 XP   | No (fixed)                      |

### 9.2 Level Thresholds (Initial Proposal — subject to tuning)

| Level | XP (cumulative) | XP to Next | Unlocks                                   |
|-------|-----------------|------------|-------------------------------------------|
| 1     | 0               | 100        | Starting level. No upgrades available.    |
| 2     | 100             | 200        | Bonus Pack cooldown upgrade (Tier 1)      |
| 3     | 300             | 400        | Basic Pack XP upgrade (Tier 1)            |
| 4     | 700             | 700        | Bonus Pack gem yield upgrade (Tier 1)     |
| 5     | 1,400           | 1,200      | Bonus Pack stored count upgrade (Tier 1)  |
| 6     | 2,600           | 2,000      | Bonus Pack card count upgrade (Tier 1)    |
| 7     | 4,600           | 3,000      | Bonus Pack cooldown upgrade (Tier 2)      |
| 8     | 7,600           | 4,500      | Basic Pack XP upgrade (Tier 2)            |
| 9     | 12,100          | 6,500      | Bonus Pack gem yield upgrade (Tier 2)     |
| 10    | 18,600          | 9,000      | All Tier 3 upgrades unlocked (values TBD) |
| 11+   | 27,600+         | TBD        | Further tiers TBD                         |

### 9.3 Upgrades

| Upgrade | Effect | Currency | Level Required |
|---------|--------|----------|----------------|
|---------|--------|----------|----------------|

|                         |                                        |              |          |
|-------------------------|----------------------------------------|--------------|----------|
| Bonus Pack Cooldown     | Reduces timer (e.g. -30s per tier)     | Coins + Gems | Level 2+ |
| Bonus Pack Gem Yield    | Adds gems per pack (e.g. +2 per tier)  | Coins        | Level 4+ |
| Bonus Pack Card Count   | Adds cards per pack (e.g. +1 per tier) | Gems         | Level 6+ |
| Bonus Pack Max Stored   | Adds storable packs (e.g. +1 per tier) | Coins        | Level 5+ |
| Bonus Pack Rarity Table | Shifts roll toward better rarities     | Gems         | Level 7+ |
| Basic Pack XP Reward    | Adds XP per pack (e.g. +5 per tier)    | Coins        | Level 3+ |

## 10. UX / UI Design

### 10.1 Global Style

- Dark base background. Card colours and effects pop against it.
- Card background colour determined by type. Card frame shape determined by rarity.
- Higher rarity = more elaborate frame and more spectacular reveal animation.
- Pack visual identity: collection cover on front face + type-specific borders/forms + opening background per collection and type.
- Variant cards (Special, Legendary, God): progressively more elaborate layouts. God/Legendary cards may be full-art with no traditional border.
- Fonts: bold, modern, with fantasy undertones. Clean but impactful, not heavy serif.

### 10.2 Global Top Bar

Visible across Pack, Collection, and Shop tabs. Contains (left to right):

- Username — as entered on first launch.
- Level X with XP progress below (e.g. '0/100').
- Coin count with coin icon.
- Gem count with gem icon.

### 10.3 Screen: First Launch — Username

Shown once, before any other screen. Full-screen prompt asking the player to enter a username. Input is validated (non-empty, max length TBD). Confirms and proceeds to the Main tab. The username can be changed once from Settings > Account.

### 10.4 Screen: MAIN (Pack Tab)

The primary screen. Shows the Basic Pack ready to open, with contextual background and pack art.

| Element              | Description                                                                                                                        |
|----------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Top bar              | Username, level + XP progress, coins, gems.                                                                                        |
| Background           | Full-screen background determined by the active collection and pack type.                                                          |
| Pack visual          | The pack occupies the centre of the screen. Front face shows collection cover art. Borders and decorative forms reflect pack type. |
| Collection selector  | Placeholder for future multi-collection toggle (TBD — not in v1).                                                                  |
| 'Open a Pack' button | Large, prominent button. Triggers pack opening flow.                                                                               |

|                |                                                                                       |
|----------------|---------------------------------------------------------------------------------------|
| Bottom nav bar | Hidden from the moment 'Open a Pack' is tapped until the summary screen is dismissed. |
|----------------|---------------------------------------------------------------------------------------|

## 10.5 Screen: CARD REVEAL (during pack opening)

Replaces the Main screen after tapping 'Open a Pack'. Bottom nav bar is hidden throughout.

| Element            | Description                                                                                                                                                             |
|--------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Top bar            | Remains visible. Username, level, coins, gems.                                                                                                                          |
| Background         | Same collection/type background as Main screen.                                                                                                                         |
| Card               | Centred. Shows: card name (top), card illustration (centre), description text (below image — Common/Rare/Epic only), card number bottom-left, rarity icon bottom-right. |
| 'New!' badge       | Appears on new cards. Shows copy count (e.g. ×3) on duplicates.                                                                                                         |
| Tap interaction    | Tap anywhere to proceed to the next card. After the 5th card, proceeds to the Summary screen.                                                                           |
| Surprise evolution | If Pack Upgrade Event triggers: evolution animation plays before card 1 is shown. Pack upgrades visually.                                                               |

**i** Cards are pre-sorted in ascending rarity order (invisibly) before the first reveal. The player always sees the least rare card first and the most rare card last.

## 10.6 Screen: SUMMARY (after all cards revealed)

Shown after the 5th card is tapped. Displays all 5 cards of the session simultaneously.

| Element                    | Description                                                                                                               |
|----------------------------|---------------------------------------------------------------------------------------------------------------------------|
| Card grid                  | All 5 cards shown in a row or grid, smaller scale.                                                                        |
| 'New!' / copy count badges | Shown on each card as during reveal.                                                                                      |
| 'Save' button              | Persists all card results to PlayerState. Awards Coins, Gems, and XP. Returns player to Main screen and restores nav bar. |

## 10.7 Screen: COLLECTION

Scrollable grid of all cards in the active collection. Shows unlocked cards in full colour and locked cards as black silhouettes of their card shape.

| Element           | Description                                                                                                                 |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Top bar           | Username, level, coins, gems.                                                                                               |
| Collection header | Collection title, and progress counters per rarity: 🌟 X/Y ⚡ X/Y 🌟 X/Y ★ X/Y 💧 X/Y 🏹 X/Y (obtained / total for each rarity). |
| Filter button     | Top-right. Opens filter panel to filter cards by rarity and/or type.                                                        |
| Card grid         | 4 columns. Cards coloured by type if unlocked; black silhouette if locked.                                                  |
| Unlocked card     | Shows card illustration thumbnail, card name, rarity icon.                                                                  |
| Locked card       | Black silhouette of card frame shape. Card name may be shown (TBD).                                                         |
| Tap on card       | Opens card detail view (full card, description, copy count, rarity, type, collection number).                               |

### 10.7.1 Collection Sort Order

Cards are sorted by the following logic — this order is fixed and not affected by the filter (filter only hides, does not reorder):

| Group                  | Order                                                                                          |
|------------------------|------------------------------------------------------------------------------------------------|
| 1. Commons by type     | All Common cards, grouped by type in type order (Type 1 all commons, Type 2 all commons, ...). |
| 2. Rares by type       | All Rare cards, grouped by type in type order.                                                 |
| 3. Epics by type       | All Epic cards, grouped by type in type order.                                                 |
| 4. Specials by type    | All Special cards: first all Special Type 1, then all Special Type 2, etc.                     |
| 5. Legendaries by type | All Legendary cards: first all Legendary Type 1, then all Legendary Type 2, etc.               |
| 6. Gods by type        | All God cards: first God Type 1, then God Type 2, etc.                                         |

## 10.8 Screen: SHOP

Scrollable vertical list of all available upgrades. No separate sections per pack type — all upgrades shown in a single list. Locked upgrades (level requirement not met) are shown greyed out with the required level displayed.

| Element     | Description                                                                                                                                |
|-------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Shop header | 'SHOP' title on dark background.                                                                                                           |
| Upgrade row | Each upgrade is a horizontal card row: left side shows upgrade name, icon, and current → next value (e.g. '10 min → 9:30 min'). Right side |

|                  |                                                                                  |
|------------------|----------------------------------------------------------------------------------|
|                  | shows the upgrade button with cost (Coins and/or Gems icon + amount).            |
| Locked upgrade   | Greyed out row. Upgrade button replaced with 'Level X required' label.           |
| Max tier upgrade | Upgrade button replaced with 'MAX' indicator. No further upgrade possible.       |
| Bonus Pack timer | Bonus Pack ready countdown or 'Ready!' status shown at the top of the shop list. |

**i** The upgrade button must show the exact cost and the precise before → after improvement for the next tier (e.g. 'Cooldown: 10:00 → 9:30', 'Gems per pack: 5 → 7'). Players must be able to make an informed decision without tapping into a sub-screen.

## 10.9 Screen: SETTINGS

A list of navigation rows. Each row opens a dedicated sub-screen for that specific task. No inline controls on the Settings screen itself.

| Row            | Icon                                                                                | Sub-screen content                                                                                                   |
|----------------|-------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------|
| Language       |  | Select between English and Español. More languages in future.                                                        |
| Google Play    |  | Connect account for cloud save.                                                                                      |
| Account        |  | Change username (allowed once only). Current username displayed. If already changed: field is read-only with a note. |
| Terms of Use   |  | Link to external URL or in-app text screen.                                                                          |
| Privacy Notice |  | Link to external URL or in-app text screen.                                                                          |

## 11. Card Opening — Complete UX Flow

| Step                 | Trigger           | Description                                                                                                     |
|----------------------|-------------------|-----------------------------------------------------------------------------------------------------------------|
| 1. Main screen       | —                 | Player sees pack with collection cover and type-specific border. 'Open a Pack' button visible. Nav bar visible. |
| 2. Tap 'Open a Pack' | Player tap        | Nav bar hides immediately. Pack Upgrade Event check fires.                                                      |
| 3a. No event         | ~99.5% of taps    | Standard pack opening animation begins.                                                                         |
| 3b. Surprise event   | ~0.5% of taps     | Evolution animation upgrades pack visual before opening. Resulting pack type determined by weighted roll.       |
| 4. Opening animation | After step 3      | Pack-specific animation plays. Cards are pre-sorted invisibly in ascending rarity order.                        |
| 5. Card 1 reveal     | Player tap        | Least rare card flips. Description shown (if Common/Rare/Epic). 'New!' or copy count badge appears.             |
| 6. Cards 2–4 reveal  | Player tap each   | Same as above, increasing rarity.                                                                               |
| 7. Card 5 reveal     | Player tap        | Most rare card flips. Most spectacular animation for the session.                                               |
| 8. Summary screen    | After card 5 tap  | All 5 cards visible simultaneously. 'Save' button.                                                              |
| 9. Save              | Player tap 'Save' | Cards, Coins, Gems, XP applied to PlayerState. Returns to Main screen. Nav bar restores.                        |

## 12. Future Features (Roadmap)

| Feature                     | Notes                                                                    |
|-----------------------------|--------------------------------------------------------------------------|
| Pack Upgrades               | Further tiers beyond Level System v1.                                    |
| Fuse / Duplicates           | Trade duplicates for Coins, Gems, or crafting materials.                 |
| Ad Rewards                  | Optional video ads for packs, gems, or coins.                            |
| Picks                       | Choose 1 card from 5 randomly presented options.                         |
| Scratch Cards               | Scratch-and-win mechanic for bonus rewards.                              |
| More Collections            | New card pools, themes, and fully real-world types (e.g. 'Dogs').        |
| Collection Selector         | Toggle between available collections on the Main screen.                 |
| Daily & Weekly Missions     | Short-term engagement goals.                                             |
| Infinite Achievements       | Scaling achievement system with ongoing rewards.                         |
| More Tabs                   | Additional navigation tabs as features grow.                             |
| Real-World Type Collections | Fully non-fantastical types (e.g. dog breeds, bird species, landscapes). |

**i** First public release targets inclusion of all roadmap features. Early internal builds may omit them.

## 13. Art Style Guide

This section defines the visual language for all card illustrations in Monster Packs. Every artist or AI tool used to create card art should follow this guide to maintain consistency across the entire collection.

### 13.1 Global Style Definition

| Attribute   | Definition                                                                                                                             |
|-------------|----------------------------------------------------------------------------------------------------------------------------------------|
| Style       | Semi-realistic digital painting. Detailed but clearly painted — not photographic. Rich textures, visible brushwork, painterly quality. |
| Mood        | Epic, dramatic, atmospheric. Each card should feel like a moment frozen in time.                                                       |
| Lighting    | Dramatic and directional. Each type has its own lighting logic (see 13.3). Avoid flat even lighting.                                   |
| Background  | Always dark as the base. Subject pops against the darkness. Background elements add atmosphere without competing with the subject.     |
| Colour      | Vibrant and saturated. Type colour is dominant but not exclusive. Contrast is high.                                                    |
| Quality     | Professional card game illustration quality. No watermarks, no text in illustration, portrait orientation.                             |
| Perspective | Subject is always clearly the focal point. Composition directs the eye to the creature first.                                          |

**i** Every prompt for every card must include the BASE STYLE string. This ensures consistency. See section 13.2 for the base prompt.

### 13.2 Base Prompt (include in every card prompt)

 semi-realistic digital painting, detailed fantasy illustration, clearly painted not photographic, rich textures, dramatic lighting, dark atmospheric background, vibrant saturated colors, epic fantasy card game art, high detail, professional quality, no text, no watermark, portrait orientation

Add this string to every card prompt, combined with the type style modifier (13.3) and rarity layout modifier (13.4).

### 13.3 Type Style Modifiers

Each type has a specific atmosphere, palette, and environmental language. Add the relevant modifier to the base prompt for every card of that type.

|                  |                                                                                                                                                                           |
|------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Infernal</b>  | deep red and orange color palette, volcanic environment, molten rock and ember particles, heat haze, dark ashen atmosphere, hellish dramatic lighting from below          |
| <b>Abyssal</b>   | dark navy and deep teal palette, bioluminescent accents, crushing ocean darkness, pressure distortion, cold light from unknown sources, deep sea horror atmosphere        |
| <b>Spectral</b>  | dark purple and cold blue palette, ghostly translucency, wisps of dark energy, moonlit shadow, ethereal fog, haunted atmosphere, death magic visual language              |
| <b>Celestial</b> | gold and deep space palette, starfield background, nebula light, radiant divine glow, cosmic dust particles, warm starlight, majestic heavenly atmosphere                 |
| <b>Storm</b>     | electric blue and silver palette, storm clouds, lightning arcs, dynamic wind motion, dramatic atmospheric energy, charged particles in the air                            |
| <b>Verdant</b>   | deep forest green palette, dappled natural light through canopy, roots and vines, ancient moss, spores floating in air, primeval forest atmosphere                        |
| <b>Frost</b>     | ice blue and white palette, frozen breath condensation, arctic light, ice crystal refraction, blizzard atmosphere, cold silence                                           |
| <b>Arcane</b>    | violet and arcane gold palette, floating magical runes, spell energy trails, arcane sparks, mystical geometric patterns, magical laboratory or ancient library atmosphere |
| <b>Savage</b>    | burnt orange and earth tone palette, raw nature, ancient wilderness, dramatic natural light, primal energy, prehistoric landscape                                         |
| <b>Mythic</b>    | antique gold and ancient stone palette, Greek or ancient Mediterranean environment, mythological drama, classical epic atmosphere                                         |

## 13.4 Rarity Layout Modifiers

Add the rarity modifier to define the composition and layout approach for each card. This controls how much the illustration dominates the card.

| Rarity      | Layout Modifier                                                                                                |
|-------------|----------------------------------------------------------------------------------------------------------------|
| Common ✨    | classic card illustration layout, subject centered, clear simple background, clean composition                 |
| Rare ⚡      | dynamic composition, detailed background environment, subject with slight dramatic pose, atmospheric depth     |
| Epic 🌟      | full dramatic composition, highly detailed background, epic pose, particle effects, intense lighting           |
| Special ★   | enhanced full-art composition with special border effects, glowing elements, premium quality artwork           |
| Legendary 💧 | full-art illustration filling entire card with no traditional border, cinematic scale, legendary presence      |
| God 🌌       | full-art divine illustration, overwhelming scale and presence, godlike visual language, fills the entire frame |

## 13.5 Card Frame System by Rarity

The physical layout and border design of each card changes with rarity. This defines what the UI team must implement for each rarity tier.

| Rarity   | Frame & Layout Design                                                                                                                                                                                                                                           | Design Intent                                                                    |
|----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------|
| Common ✨ | Classic portrait frame. Card name at top in clean bold text. Illustration occupies ~60% of card height. Description text below illustration in a styled text box. Card number bottom-left, rarity icon bottom-right. Border is the type colour, thin and clean. | Simple, clean, classic card game layout. Type colour as border accent.           |
| Rare ⚡   | Same base layout as Common but with an enhanced decorative border — subtle filigree or geometric pattern in type colour. Illustration area slightly larger (~65%). Text box has a slight gradient or texture. Name has a faint glow effect.                     | Classic layout with added decorative detail. Atmosphere builds.                  |
| Epic 🌟   | Border becomes significantly more elaborate — ornate design with rarity-specific elements. Illustration area ~70%. Name text styled more dramatically. Particle effects visible in the frame corners. Type colour is more saturated and dominant.               | Elaborate ornate border. Starting to feel premium. Corners have particle detail. |

|             |                                                                                                                                                                                                                                                                     |                                                                                 |
|-------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------|
| Special ★   | Transitional layout. Illustration area ~80%. Card border dissolves into decorative elements at corners. Name overlaps slightly into the illustration area. Enhanced glow and particle effects integrated into the border design. A clear step above Epic.           | Border is dissolving. Illustration pushes its boundaries. Glowing premium feel. |
| Legendary ✨ | Full-art layout. Illustration occupies 90%+ of card. Name displayed as elegant text overlay integrated into the art. Card number and rarity icon in corners of the artwork itself. Border is reduced to a thin elegant frame that the illustration presses against. | Near-full-art. Text overlaid on illustration. The art tells the story.          |
| God 🪐       | True full-art. Illustration fills 100% of card — no traditional border. Name, number, and rarity icon are typographically integrated into the artwork itself, styled to feel part of the illustration. The card IS the art.                                         | Pure full-art. Zero border. The card is the illustration.                       |

i The progression Common → Rare → Epic → Special → Legendary → God should feel like a continuous dissolve: the border retreats, the illustration advances, and by God tier the card IS the art.

## 14. Card Illustration Prompts

Complete Midjourney / Stable Diffusion prompts for all 142 cards. Each prompt is structured as:

 [SUBJECT DESCRIPTION], [TYPE STYLE MODIFIER], [RARITY LAYOUT MODIFIER], [BASE STYLE]

Copy the full prompt string directly into your AI image generator. For Midjourney, append '--ar 2:3 --v 6' for portrait card ratio. For Stable Diffusion, use portrait aspect ratio (512x768 or 768x1152).

i Variant cards (Special, Legendary, God) share the same subject as their base card but with upgraded composition and layout. The prompt reflects this. Generate variants separately from base cards.

### 14.1 INFERNAL (15 cards)

|                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|--------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Ember Lizard</b><br>Common  | <i>a small fire lizard with glowing ember scales, skittering across black volcanic rock, leaving tiny scorch marks, orange and red glow from its body, deep red and orange color palette, volcanic environment, molten rock and ember particles, heat haze, dark ashen atmosphere, hellish dramatic lighting from below, classic card illustration layout, subject centered, clear simple background, clean composition, semi-realistic digital painting, detailed fantasy illustration, clearly painted not photographic, rich textures, dramatic lighting, dark atmospheric background, vibrant saturated colors, epic fantasy card game art, high detail, professional quality, no text, no watermark, portrait orientation</i> |
| <b>Ash Crow</b><br>Common      | <i>a charred black crow with bright ember-orange eyes, perched on a burned branch, ash falling around it like snow, deep red and orange color palette, volcanic environment, molten rock and ember particles, heat haze, dark ashen atmosphere, hellish dramatic lighting from below, classic card illustration layout, subject centered, clear simple background, clean composition, semi-realistic digital painting, detailed fantasy illustration, clearly painted not photographic, rich textures, dramatic lighting, dark atmospheric background, vibrant saturated colors, epic fantasy card game art, high detail, professional quality, no text, no watermark, portrait orientation</i>                                    |
| <b>Cinder Beetle</b><br>Common | <i>a large beetle with a cracked glowing carapace revealing magma beneath, standing on volcanic rock, deep red and orange color palette, volcanic environment, molten rock and ember particles, heat haze, dark ashen atmosphere, hellish dramatic lighting from below, classic card illustration layout, subject centered, clear simple background, clean composition, semi-realistic digital painting, detailed fantasy illustration, clearly painted not photographic, rich textures, dramatic lighting, dark atmospheric background, vibrant saturated colors, epic fantasy card game art, high detail, professional quality, no text, no watermark, portrait orientation</i>                                                  |

|                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Smolder Toad</b><br>Common            | a fat toad with fire-cracked skin sitting on a geothermal vent, small flames erupting from its mouth, deep red and orange color palette, volcanic environment, molten rock and ember particles, heat haze, dark ashen atmosphere, hellish dramatic lighting from below, classic card illustration layout, subject centered, clear simple background, clean composition, semi-realistic digital painting, detailed fantasy illustration, clearly painted not photographic, rich textures, dramatic lighting, dark atmospheric background, vibrant saturated colors, epic fantasy card game art, high detail, professional quality, no text, no watermark, portrait orientation                                                          |
| <b>Flamehorn Ram</b><br>Common           | a powerful ram with enormous horns engulfed in orange flame, standing on a volcanic plateau, determined expression, deep red and orange color palette, volcanic environment, molten rock and ember particles, heat haze, dark ashen atmosphere, hellish dramatic lighting from below, classic card illustration layout, subject centered, clear simple background, clean composition, semi-realistic digital painting, detailed fantasy illustration, clearly painted not photographic, rich textures, dramatic lighting, dark atmospheric background, vibrant saturated colors, epic fantasy card game art, high detail, professional quality, no text, no watermark, portrait orientation                                            |
| <b>Pyro Hellhound</b><br>Rare            | a fearsome hound with a full mane of living fire, crouching and snarling, fire particles trailing from its body, intense orange glow, deep red and orange color palette, volcanic environment, molten rock and ember particles, heat haze, dark ashen atmosphere, hellish dramatic lighting from below, dynamic composition, detailed background environment, subject with slight dramatic pose, atmospheric depth, semi-realistic digital painting, detailed fantasy illustration, clearly painted not photographic, rich textures, dramatic lighting, dark atmospheric background, vibrant saturated colors, epic fantasy card game art, high detail, professional quality, no text, no watermark, portrait orientation              |
| <b>Magma Crab</b><br>Rare                | a massive crab with thick armour of cooled black lava rock, claws glowing red-hot at the joints, standing in a pool of magma, deep red and orange color palette, volcanic environment, molten rock and ember particles, heat haze, dark ashen atmosphere, hellish dramatic lighting from below, dynamic composition, detailed background environment, subject with slight dramatic pose, atmospheric depth, semi-realistic digital painting, detailed fantasy illustration, clearly painted not photographic, rich textures, dramatic lighting, dark atmospheric background, vibrant saturated colors, epic fantasy card game art, high detail, professional quality, no text, no watermark, portrait orientation                      |
| <b>Lava Serpent</b><br>Rare              | an enormous serpent emerging from a river of lava, its scales alternating between obsidian black and glowing orange, magma dripping from its body, deep red and orange color palette, volcanic environment, molten rock and ember particles, heat haze, dark ashen atmosphere, hellish dramatic lighting from below, dynamic composition, detailed background environment, subject with slight dramatic pose, atmospheric depth, semi-realistic digital painting, detailed fantasy illustration, clearly painted not photographic, rich textures, dramatic lighting, dark atmospheric background, vibrant saturated colors, epic fantasy card game art, high detail, professional quality, no text, no watermark, portrait orientation |
| <b>Lava Serpent (Special)</b><br>Special | an enormous lava serpent coiling dramatically across the full frame, glowing lava veins pulsing beneath obsidian scales, molten rock dripping, full-art premium card illustration, deep red and orange color palette, volcanic environment, molten rock and ember particles, heat haze, dark ashen atmosphere, hellish dramatic lighting from below, enhanced full-art composition with special border effects, glowing elements, premium quality artwork, semi-realistic digital painting, detailed fantasy illustration,                                                                                                                                                                                                             |

|                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

## Changelog

| Version | Date       | Summary                                                                                                                                                                                                                                                                                                             |
|---------|------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 0.1     | Initial    | First idea draft — base concept, stack, initial types and rarities.                                                                                                                                                                                                                                                 |
| 0.2     | 2026-04-12 | Full expansion: 10 types, card examples, pack system, SlotRule, Pack Upgrade Event, Bonus Pack, resource table, duplicate policy, visual style, roadmap.                                                                                                                                                            |
| 0.3     | 2026-04-12 | Card catalogue with rarities + variant system. User Level system. Pack rules refined. Rarity-Boosted vs Lucky Packs separated. All Bonus Pack parameters are upgradeable. Card scope expanded.                                                                                                                      |
| 0.4     | 2026-04-13 | Full UX/UI section integrated: username flow, card description field, card frame layout, pack visual identity model, rarity icon system, Collection sort order, Shop upgrade row design, Settings structure, complete 9-step opening flow. Card descriptions added to full catalogue.                               |
| 0.5     | 2026-04-13 | Art Style Guide added (Section 13): global style definition, base prompt string, per-type style modifiers, per-rarity layout modifiers, card frame system by rarity tier. Card Illustration Prompts added (Section 14): complete Midjourney/Stable Diffusion prompt for all 142 cards, structured and ready to use. |

## 15. Fixes and improvements

There are a lot of things to change and improve. I made a list. This changes should be applied for the next version (i will explain it in spanish so i don't miss details, but everything has to be in english in the future GDDs)

- Las imágenes de las cartas deben aparecer en los sobres y en el listado de colecciones. He añadido 5 imagenes (card\_2\_placeholder, card\_3\_placeholder, card\_4\_placeholder, card\_5\_placeholder and card\_6\_placeholder) para probar como se veían, y no se han usado en ningún momento! Se tiene que cambiar algo en la clase CardDataSource.kt?
- El sobre gratis no está funcionando bien: no da gemas ni se abre un sobre. Este sobre se tiene que definir a parte entiendo, y asignar una portada específica.
- No hay ningún tipo de animación para ningún evento: al abrir sobre, al conseguir cartas. Añadamos esto aunque sean animaciones simples.
- En la "Shop" faltan las mejoras del sobre básico: Mejorar probabilidades de que te toquen cartas de mayor Rarity, y la cantidad de cartas que puede haber en un sobre (max 10).
- En la "Shop", el botón de "Upgrade" se debe mostrar con algún tono rojizo si la mejora está desbloqueada pero no se tienen suficientes recursos.
- El botón de filtrar no está funcionando. Se debe poder filtrar por Type y por Rarity
- El botón para cambiar idioma no funciona (esto quizás se puede hacer más adelante si es costoso)
- El orden de creación de las cartas debe ser por Rarity. Es decir, ahora mismo la creación del Type Infernal es así:

```
// — INFERNAL (15 cards)

add(card(id++, 1, "Ember Lizard",
CardType.INFERNAL, Rarity.COMMON, "Small fire lizard,
base creature. Skitters across volcanic rock leaving
scorch marks.))
add(card(id++, 2, "Ash Crow",
CardType.INFERNAL, Rarity.COMMON, "Charred black crow
with ember eyes. Feeds on the remains of those consumed by
flame.))
add(card(id++, 3, "Cinder Beetle",
CardType.INFERNAL, Rarity.COMMON, "Volcanic beetle with
a glowing carapace. Its shell is hot enough to brand
skin.))
add(card(id++, 4, "Smolder Toad",
CardType.INFERNAL, Rarity.COMMON, "Volcanic toad that
spits bursts of fire. Found near geothermal vents.))
add(card(id++, 5, "Flamehorn Ram",
CardType.INFERNAL, Rarity.COMMON, "Ram with permanently
```

```

burning horns. Charges headfirst into anything that
moves."))
- add(card(id++, 6, "Pyro Hellhound",
CardType.INFERNAL, Rarity.RARE, "Classic hellhound
with a mane of living fire. Its howl ignites the air
around it."))
- add(card(id++, 7, "Magma Crab",
CardType.INFERNAL, Rarity.RARE, "Crab armoured in
cooled lava rock. Crushes prey with claws that reheat on
impact."))
- add(card(id++, 8, "Lava Serpent",
CardType.INFERNAL, Rarity.RARE, "A serpent that swims
through magma as if it were water."))
- add(card(id++, 9, "Lava Serpent (Special)",
CardType.INFERNAL, Rarity.SPECIAL, null, isVariant =
true, baseCardId = 8))
- add(card(id++, 10, "Cinderclaw Wyvern",
CardType.INFERNAL, Rarity.EPIC, "Wyvern with talons
of molten rock. Leaves rivers of fire wherever it
lands."))
- add(card(id++, 11, "Cinderclaw Wyvern (Leg.)",
CardType.INFERNAL, Rarity.LEGENDARY, null, isVariant =
true, baseCardId = 10))
- add(card(id++, 12, "Molten Serpent",
CardType.INFERNAL, Rarity.EPIC, "A massive serpent of
pure magma. Older than the volcanoes it inhabits."))
- add(card(id++, 13, "Molten Serpent (Special)",
CardType.INFERNAL, Rarity.SPECIAL, null, isVariant =
true, baseCardId = 12))
- add(card(id++, 14, "Ember Phoenix",
CardType.INFERNAL, Rarity.EPIC, "A phoenix reborn
endlessly from its own ash. Its tears are liquid fire."))
- add(card(id++, 15, "Magma Titan",
CardType.INFERNAL, Rarity.GOD, null, isVariant =
false))

```

Pero lo ideal sería lo siguiente:

```

    add(card(id++, 1, "Ember Lizard",
CardType.INFERNAL, Rarity.COMMON, "Small fire lizard, base
creature. Skitters across volcanic rock leaving scorch marks."))

```

```

add(card(id++, 2, "Ash Crow", CardType.INFERNAL,
Rarity.COMMON, "Charred black crow with ember eyes. Feeds on the
remains of those consumed by flame."))
add(card(id++, 3, "Cinder Beetle", CardType.INFERNAL,
Rarity.COMMON, "Volcanic beetle with a glowing carapace. Its shell
is hot enough to brand skin."))
add(card(id++, 4, "Smolder Toad", CardType.INFERNAL,
Rarity.COMMON, "Volcanic toad that spits bursts of fire. Found
near geothermal vents."))
add(card(id++, 5, "Flamehorn Ram", CardType.INFERNAL,
Rarity.COMMON, "Ram with permanently burning horns. Charges
headfirst into anything that moves."))
add(card(id++, 6, "Pyro Hellhound", CardType.INFERNAL,
Rarity.RARE, "Classic hellhound with a mane of living fire. Its
howl ignites the air around it."))
add(card(id++, 7, "Magma Crab", CardType.INFERNAL,
Rarity.RARE, "Crab armoured in cooled lava rock. Crushes prey
with claws that reheat on impact."))
add(card(id++, 8, "Lava Serpent", CardType.INFERNAL,
Rarity.RARE, "A serpent that swims through magma as if it were
water."))
add(card(id++, 9, "Cinderclaw Wyvern", CardType.INFERNAL,
Rarity.EPIC, "Wyvern with talons of molten rock. Leaves rivers
of fire wherever it lands."))
add(card(id++, 10, "Molten Serpent", CardType.INFERNAL,
Rarity.EPIC, "A massive serpent of pure magma. Older than the
volcanoes it inhabits."))
add(card(id++, 11, "Ember Phoenix", CardType.INFERNAL,
Rarity.EPIC, "A phoenix reborn endlessly from its own ash. Its
tears are liquid fire."))
add(card(id++, 12, "Lava Serpent (Special)", CardType.INFERNAL,
Rarity.SPECIAL, null, isVariant = true, baseCardId = 8))
add(card(id++, 13, "Molten Serpent (Special)", CardType.INFERNAL,
Rarity.SPECIAL, null, isVariant = true, baseCardId = 10))
add(card(id++, 14, "Cinderclaw Wyvern (Leg.)", CardType.INFERNAL,
Rarity.LEGENDARY, null, isVariant = true, baseCardId = 9))
add(card(id++, 15, "Magma Titan", CardType.INFERNAL,
Rarity.GOD, null, isVariant = false))

```

Como se puede ver, solo se han cambiado el orden de la Card con id 9 hasta la 14. Ahora estan ordenadas por Rarity.

- Anota también que en un futuro próximo vamos a añadir más cartas por Type, y que tenemos que hacer más hincapié en que no hace falta que todos los Types tengan una

cantidad tan parecida de cartas. Ahora mismo casi todas tienen 14, solo hay 2 de 15 y una de 13. Esto lo quiero cambiar en un futuro y que hay amás sensación de “exclusividad”. Además, vamos a añadir un par de Special más por Type y alguna Legendary más también.

- Y por último un cambio muy grande. Para que el juego “atrape” un poco a los usuarios he pensado en una estrategia para ello. Quiero que haya un límite de sobres para abrir. Al empezar, el usuario tendrá 50 sobres (que es el máximo de sobres almacenados inicial). Cuando el usuario abre un sobre se resta uno a la cantidad de sobres almacenados. Se debe añadir por lo tanto un contador de sobres en la pantalla de sobres. Cuando el user no tiene el máximo de sobres acumulados, se ejecuta una cuenta atrás (que también debe tener en cuenta las horas si el usuario no ha abierto el juego! por lo tanto creo que se tendrá que guardar cuando se cerró el juego por última vez y cuando se ha abierto para generar los sobres que correspondan). Cada hora se generan 2 sobres.

Sé que este es un cambio muy grande, pero es que probando la versión inicial del juego he visto que es muy fácil completar la colección de básicos. Por cierto, vamos a cambiar también los porcentajes de aparición, ya que al no ser sobres infinitos puede costar mucho. Las God pasan a tener un rate del 0.5%, las Legendary un 2.5%, las Special un 5% y las Epic un 15%. Luego las raras un 37% y las comunes el 40% restante. Esto aplica a los slots 3, 4 y 5 que pasan a ser “libres” (ya que ahora solo la primera carta es siempre COMuna y la segunda es siempre Rara).

Apunta también para futuras mejoras que aumentaremos la cantidad de sobres que se generan en una hora, y que también se podrá reducir este tiempo de generación.

- Anota también mejoras futuras añadir un fondo animado a la pantalla de abrir sobre. Un fondo en el que haya colores que se funden y un movimiento onírico. Este fondo cambiará con las distintas colecciones, así que seguramente haya que añadir un atributo al modelo de CardCollection
